FACILITATION

Cam is a certified BOS360™ coach and experienced facilitator with 100s of sessions under his belt

He brings a calm, practical presence to leadership conversations and knows how to guide teams toward clarity, accountability, and better decisions without adding unnecessary complexity.

- BOS360™ Certified Coach
- EOS Implementor 2018–2024
- INNOVATION CLUSTER Expert in Residence

THE FRAMEWORK

The value I provide

BOS360 CERTIFIED BUSINESS COACH

What is BOS360™? Learn more →

BOS360™ is a practical business operating system that helps leadership teams strengthen three things: Vision, Momentum, and Health. In plain terms, it gets leaders aligned on where the business is going, builds the discipline and accountability to execute, and creates a healthier, higher-performing team.

Vision

Getting everyone aligned around where the business is going and how the team will get there.

Momentum

Building the focus, discipline, and accountability required for consistent execution.

Health

Creating a cohesive leadership team and a stronger, higher-performing culture.

Typical outcomes

- More clarity on where the company is going and how it will get there
- Better execution, focus, and accountability across the team
- Healthier leadership dynamics and stronger culture
- A simpler, more consistent way to run the business

Does any of this sound familiar?

These are the kinds of scaling pains founders often describe before they put a better operating system in place.

- "We're growing, but it feels messier than it should."
- "Too much still depends on me."
- "My leadership team is not fully aligned."
- "Accountability is inconsistent."
- "We've hit a ceiling."
- "Our priorities keep changing."
- "We need more clarity on the plan."

Why Cam?

LinkedIn

An experienced operator with a practical coaching style

Cam brings real operating experience, pattern recognition from high-growth environments, and a calm, methodical style that helps leadership teams cut through the noise of scaling.

Operator Turned Coach
Hands-on leadership experience in high-growth environments before moving into coaching.
